

**To the children and staff at Beaver Road Primary  
School**

**This year we have worked with many children and staff from your school and we have learned with you as we have explored mathematics together.**

**All of us have been impressed by the confidence, independence and good behaviour of children at Beaver Road. We have also been impressed by how well children at Beaver Road work cooperatively in teams and how well they discuss their ideas with others.**

**We have left behind the Maths Trail which we worked on with you last month and the sarobans (Japanese abacuses) we worked on with you last term. We have also left a few photographs of children in Year 5 working on the Maths Trail with us.**

**It has been a pleasure to spend time working at Beaver Road and we look forward to working with you again next year. Thank you for your enthusiasm.**

**Best wishes,**

**John Smith, Julie Ryan and teacher trainees from  
Manchester Metropolitan University Institute of  
Education**
