

FOBR & School Council

Playground Equipment

Recently, FOBR and the school council met to look at additional playground equipment.

FOBR has generously donated £6000 towards the cost of equipment and further fundraising may be necessary. The equipment will be placed in the playgrounds for the benefit of your children at playtimes and P.E. lessons. This newsletter has been distributed to show you some of our ideas and to gain your feedback before we move forward.

We are hoping to have the equipment in place before the end of 2008.

Benches

We are looking at three types of equipment one of which is benches like the photograph below. We are looking at metal benches because they last longer and do not require much maintenance.

Sports walls

This is a sports wall, (below) they have many sport activities children can enjoy e.g. cricket posts, football goal, basketball hoop, etc. Also they can be used in P.E. lessons so like the trim trails good all round.

Trim Trails

Above and to the right are two trim trails that have many activities children love. They offer plenty of fun stuff for playtime as well as P.E. lessons.
