Christmas Fair – more help please

Saturday 5 December is the School Christmas Fair and we look forward to seeing you all there. Money raised will contribute towards the new Community Room that we want to create in School – a place that parents and carers can share with the School for meetings and get together.

Nabila Din the organiser of the Fair is putting out one final call for:

- Tombola prizes (thanks to all of you who have already donated)
- Second hand books (for Natalie Marshall's stall)
- Mince pies of all shapes and descriptions for sale on the day.

This week Friends of Beaver Road gave a substantial cheque to the School for the new School Library which will open in January. The Friends have been a very good source of support and for social activities over many years but executive members now feel it is time to hand on responsibilities to maybe a new organisation of parents and teachers.

Parent Governor Elections

Please don't forget to cast your vote this week – Friday is the final day.

Onwards and upwards

Our School is about more than just academic achievement. We believe in giving children opportunities to develop all sides of their character and personality – through music, sport, drama, outdoor activities – and in encouraging each of them to recognise the talents they have and their responsibilities to others, to their families, to their School and local community and further afield. Nevertheless we can still celebrate when national data is published:

- Final scores at the end of Key Stage 2 are significantly above national averages
- Progress that children make from Key Stage 1 to Key Stage 2 is significantly above national averages
- Children exceed their predicted success in both English and Mathematics at Level 4+
