- School Premises (England) Regulations 2012

We believe we comply with the Regulatory Reform (Fire Safety) Order 2005 as we act responsibly and take our fire safety duties seriously in order to protect pupils, school personnel and visitors to School

In compliance with the Regulatory Reform (Fire Safety) Order 2005 we have in place a Fire Safety Manager who has overall responsibility for fire safety matters at this School.

We believe it is essential to have in place an effective policy for the evacuation of the School building in the event of a fire or any other emergency. We believe that it is the responsibility of individual members of the School personnel to make themselves familiar with this policy and procedures to ensure the safe evacuation of all pupils.

We will ensure that regular fire risk assessments are undertaken, that fire equipment is maintained to a high standard, that all School personnel are aware of and trained in the detailed evacuation procedures in order that no life is put in danger in the event of a fire.

We will ensure that risk assessments, evacuation procedures and fire precaution systems are reviewed every half term.

In the event of industrial action by the Fire Service we will ensure that an emergency action plan is in place and that the Fire Safety Manager (Responsible Person) will review all fire safety arrangements.

Beaver Road Primary School

We wish to work closely with the School Council and to hear their views and opinions as we acknowledge and support Article 12 of the United Nations Convention on the Rights of the Child that children should be encouraged to form and to express their views.
