British
Science
Week
2021

Friday 5th March 2021

Dear Parents and Carers,

Mr Smart is the class teacher in 4M who has kindly agreed to take a lead on Science and he has the following message for you about next week...

Next week is British Science Week and the theme for the week is 'Innovating for the future'.

To celebrate the week, our focus this year will be on creating two sustainable gardens (one at each school) where children will sow vegetables in plastic trays and turn some spaces into eye catching school farms.

Can children please bring to school any recycled trays you may have, e.g. planting trays or anything with a reasonable surface area e.g. egg boxes, margarine tubs, washed plastic trays used for fruit and vegetables?

Although it is not essential, we would also be grateful if you could supplement the seeds we have with any packets of vegetable seeds you are willing to donate.

Please keep an eye on Twitter for all of our Science Week photos. Our Science webpage will keep you updated with our progress in creating our new gardens.

Best wishes,

Ruth Byrne
Deputy Headteacher

Article 31 Every child has the right to relax, play and take part in a wide range of cultural and artistic activities.
