M20 6SX

Friday 26th February 2021

Dear Parents and Carers,

Since Pythagoreans created the word “mathematics” in the 6th century BC, numbers have been a beneficial and challenging part of life. For those who wobble with Maths, **World Maths Day** is a chance to practice math skills, and get involved in

a worldwide event that celebrates the history of Mathematics to improve the lives of students, parents, and teachers everywhere.

This year, we would like the children to engage with a range of activities from our ‘World Maths Day’ booklet which will be available on the mathematics page of our website:

<https://www.beaverroad.org.uk/page/maths/58464>.

Please find this at the bottom of the page.

One of our activities involves ‘Marshmallow Geometry’ so the children can experiment with designs and the teachers will be celebrating creativity!

We also will be enjoying some of Chef Martin’s recipes through videos, starring the Year 6s!

Finally, we will be teaching children about the importance of the census and how the information we collect will help our school and local area. Children will receive a link through Seesaw to online resources. Lessons are accredited by MEI, NATE and the Geographical Association.

Let’s enjoy Maths together!

Kind Regards
Natalie Turner

Mathematics Lead and Head of Year 6
